SKILLS

- HTML, CSS, Javascript, Typescript
- React, Next.js
- Zustand, Redux
- Sass/SCSS, Bootstrap, MUI, Tailwindcss, Shadcn/ui
- React Hook Form, Yup, Zod
- Git, AI Coding

ABOUT ME

I'm focused on turning ideas into practical software, doing my best work when collaborating closely with founders, designers, and developers.

EXPERIENCE

UX Engineer 2022.03 - Current
Simpson Strong-tie Vietnam

- Designed, developed, and maintained high-performance web applications for internal and U.S. clients. Utilizing React.js, Redux, and other technologies to deliver seamless user experiences.
- Led the development of the Blueprint project series (8+ applications), a web application allowing users to access real-time product specifications via dynamic input data (e.g., app.strongtie.com/fd).
- Partnered closely with cross-functional teams (5+ members), including Business Analysts, Project Engineer QA/QC, Software Developers to translate complex requirements into actionable tasks, streamline sprint planning, and deliver 100% of project milestones ahead of deadlines.
- Championed Agile/Scrum practices to optimize development workflows, reviewed 50+ pull requests, and resolved 20+ critical bugs, reducing production issues and ensuring on-time delivery for all sprints.

Junior Front-end Developer 2021.01 - 2022.02
Ninecode Company

- Contributed to the development of Ninequiz, an online examination platform, by building responsive UI components and efficient state logic using React.js.
- Partnered within a cross-functional team to optimize performance, resolve bugs, and deliver core features under the guidance of Senior Developers.
